

# Proclamation

**W**hereas, our City is committed to recognizing our growth and strength depends on the safety and economic value of the homes, buildings and infrastructure that serve our citizens, both in everyday life and in times of natural disaster; and

**W**hereas, our confidence in the structural integrity of these buildings that make up our community is achieved through the devotion of vigilant guardians—building safety and fire prevention officials, architects, engineers, builders, tradespeople, design professionals, laborers and others in the construction industry—who work year-round to ensure the safe construction of buildings; and

**W**hereas, these guardians are dedicated members of the International Code Council, a U.S. based organization, that brings together local, state and federal officials that are experts in the built environment to create and implement the highest-quality codes to protect us in the buildings where we live, learn, work, worship and play; and

**W**hereas, our nation benefits economically and technologically from using the International Codes®, the most widely adopted building safety and fire prevention codes in the nation; these modern building codes include safeguards to protect the public from natural disasters such as hurricanes, snowstorms, tornadoes, wildland fires, floods and earthquakes; and

**W**hereas, Building Safety Month is sponsored by the International Code Council to remind the public about the critical role of our communities' largely unknown guardians of public safety—our local code officials—who assure us of safe, efficient and livable buildings that are essential to keep America great; and

**W**hereas, “Code Officials—Partners in Community Safety and Economic Growth” is the theme for this year’s Building Safety Month and encourages all Americans to raise awareness of the importance of building safe and resilient construction; fire prevention; disaster mitigation; and new technologies in the construction industry. It encourages appropriate steps everyone can take to ensure that the places where we live, learn, work, worship and play are safe, and recognizes that countless lives have been saved due to the implementation of safety codes by local and state agencies.

Now, therefore, may it be known that I, Dan Devine, Mayor of the City of West Allis, State of Wisconsin, do hereby proclaim the month of **May 2017**, as “**Building Safety Month**” in West Allis, acknowledging the essential service provided to all of us by local and state building departments, fire prevention bureaus, and federal agencies in protecting lives and property.

Signed   
Mayor Dan Devine
